

## New Product Introduction

# SONTRO<sup>®</sup>

OTC Hearing Aids

The OTC Sontro Hearing Aids pair with the free otoTune™ app allowing your customers to customize their hearing from the comfort of home.

### FOR MILD TO MODERATE HEARING LOSS

The Sontro Hearing Aids combine **artificial intelligence** and **Bluetooth technology** with the patented otoTune™ app so your customer can confidently rejoin the conversation and never miss another word. The **AI Model** is an artificially intelligent, self-fitting hearing aid.

#### Hearing Aid Set-Up and Pairing is Super Easy with the otoTune Phone App

Once your customer purchases the Sontro Hearing Aids, they need to download the otoTune app. **The otoTune app is the only two-button at-home hearing test.**

It automatically tests both ears simultaneously with the Sontro Hearing Aids, delivering quick, accurate results comparable to professionally administered audiograms.
